Who We are

Mr Fish Processing Hub is a manufacturing-led fish processing and export brand supplying **freshwater and marine fish products** to local, regional and international markets.

Operating across **Ghana and Uganda**, the brand manufactures **fresh, frozen, smoked, salted and dried fish products** under controlled specifications, strict quality systems, and export-aligned compliance frameworks.

With operational roots in the Lake Victoria basin, Mr Fish Processing Hub has developed deep expertise in processing **Nile Perch and Tilapia**, alongside a broad portfolio of traditional and value-added fish products sourced from both freshwater and marine environments.

The brand serves **importers, distributors, food service operators, supermarkets, and institutional buyers**, supplying products in bulk export formats and buyer-specific packaging.

Capacity & Scalability

Mr Fish Processing Hub operates at **commercial manufacturing scale**, with the ability to support **consistent volumes, repeat orders, and scalable supply programs** across multiple markets through a flexible, multi-origin operating model.

Group Presence

Mr Fish Processing Hub operates through **Benjbelle group companies and locally registered operating entities**, supporting manufacturing, distribution, and international trade across **Africa, Europe, and North America**.

EXPORT & LOGISTICS

Export & Logistics Capability

Mr Fish Processing Hub is structured for bulk export and regional distribution.

Sea Freight (Primary)

- 20ft & 40ft containers
- Frozen, smoked, and salted fish products
- Optimized load planning and cold-chain control
- Temperature controlled containers

Airfreight (Secondary / Premium)

- Fresh chilled fillet products
- Suitable for high-end hotels and fresh fish wholesalers

Documentation & Compliance

- Commercial invoice & packing list
- Health and quality documentation per destination
- Buyer-specific labeling and specifications

PRIVATE LABELLING & WHITE LABEL MANUFACTURING

Mr Fish Processing Hub offers private label and white label manufacturing services for importers, distributors, supermarkets, and food service brands seeking to market fish products under their own brand identity.

We manufacture to buyer specifications under controlled quality systems and export-aligned processing standards.

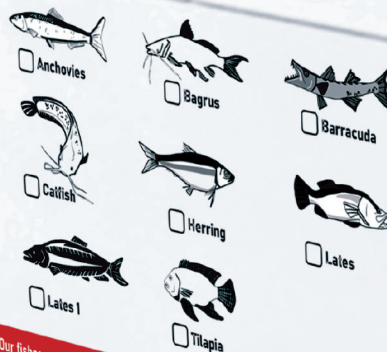

Commercial Terms

Private label manufacturing is available subject to:

- Minimum order quantities
- Agreed specifications
- Approved artwork and packaging formats
